BS-Hydro+® RTU

**READY TO USE SURFACE
DISINFECTANT SPRAY**

At Zuverlasse, we go beyond supplying premium hygiene and disinfection products we redefine industry standards. Our products are meticulously engineered using cutting-edge technology, ensuring the highest levels of safety, superior performance, and seamless convenience for our customers but our commitment doesn't stop at delivering high-quality solutions. As a trusted leader in hygiene and disinfection, we are driven by a deeper purpose: to promote health, safety, and operational excellence across every environment we serve. With a relentless focus on innovation and expertise, Zuverlasse is setting new benchmarks in the industry empowering businesses with solutions they can truly rely on.

PRESENTING

BS-Hydro+® RTU

READY TO USE SURFACE DISINFECTANT SPRAY

BS-Hydro+®RTU spray is a next-generation, high-level to intermediate-level disinfectant meticulously engineered with Enhanced Hydrogen Peroxide (EHP™) Technology for prolonged efficacy BS HYDRO+® RTU Spray is surface disinfectant formulated to meet and exceed the demanding hygiene protocols of modern healthcare and pharmaceutical settings. This ready-to-use (RTU) solution offers unmatched ease of application without compromising on efficacy or safety. It is entirely non-toxic, non-carcinogenic, non-irritant, and eco-friendly ensuring safe usage even in high-frequency, high-risk zones. In addition to its clinical excellence, BS HYDRO+®RTU Spray is widely trusted in pharmaceutical and bioproduct industries, particularly within QA/QC sterile areas, where precision and compliance with contamination control protocols are vital. Its superior safety profile, combined with high-level to intermediate-level disinfection efficacy, makes it a preferred choice for maintaining safe conditions in regulated manufacturing environments. BS HYDRO+® RTU Spray is specifically designed to deliver rapid and reliable terminal disinfection across critical care areas such as Operation Theatres (OT), Intensive Care Units (ICU), Neonatal Intensive Care Units (NICU), ICCUs, and recovery rooms—where infection control is of paramount importance. Its powerful, broad-spectrum antimicrobial action ensures the swift elimination of a wide range of pathogens, contributing to safer patient care environments.
